SUMMARY

Full Stack Software Engineer with over two years of experience building and shipping production web and mobile applications end to end, from API and database design through to release. Experienced across Python/FastAPI backends, React and Next.js frontends, and React Native mobile apps, with hands-on work in secure authentication, AI-powered workflows, IoT integration, and cloud deployment on Azure. Focused on clean, maintainable code, measurable reliability, and close collaboration with cross-functional teams.

EXPERIENCE

Software Engineer I

Phigital Care

Remote

09/2025 - Present

- Owned full-stack engineering across company projects, taking responsibility for architecture, backend services, databases, integrations, testing, debugging, and production delivery using **Python, FastAPI, TypeScript, Next.js, React, REST APIs, MSSQL (SQL Server), PostgreSQL, Cosmos DB, Redis, Docker, and Azure**.
- Engineered **Trilogy SmartNotes**, an **AI-assisted clinical documentation platform** for behavioural health clinicians, implementing Entra ID (Azure AD)/MSAL SSO with OAuth token refresh, AI-powered workflows, analytics, activity tracking, and hybrid RSA-OAEP + AES-256-GCM payload encryption, while maintaining ~2.5s average AI response times in production.
- Built AI-assisted development and automation workflows integrating Jira, MCP, AI orchestration, automated PR generation and review, CI/CD, and deployment, enabling structured feature development, bug fixes, and code-quality checks.
- Recognized with a **Certificate of Appreciation** for outstanding contribution and UI innovation in the Smart Notes project.

Associate Software Development Engineer

Futuristic Labs

Hyderabad

06/2024 - 07/2025

- Developed the **responsive web application** for **automated kitchen appliances** using React.js, Node.js, Material UI, MongoDB, and Firebase, delivering an intuitive, guided cooking experience across devices.
- Built the **cross-platform mobile app** for **Klynk** smart cooking using **React Native**, letting users browse chef-curated recipes, customize and create their own, plan meals, and cook step by step through the connected **Semi** induction cooktop and **Riku** rice and curry maker.
- Integrated **IoT devices** with embedded systems, increasing automation capabilities by 30%, and ensured seamless integration between software and hardware to improve appliance functionality.

MERN Stack Intern

Xcrino Business Solutions Pvt Ltd

Remote

01/2024 - 05/2024

- Built a high-performance **MERN** stack web app with Next.js for Server-Side Rendering (SSR) to improve **SEO** and UX, with type safety in TypeScript and a responsive Tailwind CSS UI.
- Developed RESTful APIs, managed version control with Git, and resolved technical issues to meet project deadlines.
